SIN CITY 2 scores number 1 in Russia

A-Company Russia's release of the long awaited sequel bowed at #1 in Russia, being the most successful out of seven new openings with ca. US\$ 4 million. On over 1,900 screens this was not only the widest release of A-Company Russia ever, it also beat other new opener *PLANES: FIRE & RESCUE* which released on an even higher number of screens.

Another A-Company market who opened this weekend was Hungary, where *SIN CITY: A DAME TO KILL FOR* kicks in at #4 of the charts with USD 83,000, being the second best out of four new openings and leaving other new starters like *STEP UP: ALL IN* behind.

"After *CLOUD ATLAS* and *I, FRANKENSTEIN*, *SIN CITY 2* is another example that proves A-Company's strength to succeed independently of domestic performance, by tailoring the marketing campaigns to the individual needs of the territories and thereby outperforming other major markets", says Alexander van Dülmen, CEO of A COMPANY FILMED ENTERTAINMENT.

Through A-Company partner Intercom in Romania, *SIN CITY 2* had the second best opening of the weekend and made it to number #3 with USD 81,000. Further releases are coming up the next two weeks, including Czech Republic, Poland and Bulgaria.
